

# **Selvon Instruments Private Limited**

**Welcome To  
Selvon Instruments Pvt. Ltd.**

**FACTORY ADD:-  
C-48, ELECTRONIC CITY, SECTOR 63,  
NOIDA-201301**

**Ph. : 9315941305,9811022814  
: 0120-4711000 [30 lines]**

**Email : [marketing@selvon.net](mailto:marketing@selvon.net)**

**Visit : [www.selvon.net](http://www.selvon.net)**

Selvon Instruments Pvt. Ltd. came into existence in the year 1993 and established their works at Sector-63, Noida.

'Selvon' are prime Manufacturers of Servo Voltage Stabilizers( Dimmer& Linear Type),On-Line UPS Systems, IGBT Static Stabilizers, Isolation Transformers, Step Up/Step Down Transformers, AVR's etc. We offer a wide range of Power Electrical Instruments as per the industry set norms and regulations. Our Engineers and Technicians make use of the latest machinery and equipment. Selvon Power Line Equipments are known for their rich attributes such as less heating, high efficiency and low power consumption. The Electrical Instruments offered by us are appreciated for their thermal stability, sturdy construction, compact design and longer serving life.

We have been able to manage and take bulk assignments owing to our large production capacity. Being a quality conscious name, we assure that the premium quality of the offered range is never compromised at our end. We are exporting our products to African Countries & Nepal.

Mr. Rajendra Singh (M.D.) has helped us in catering to the precise needs of our valuable customers in the most efficient manner. He with his excellent management skills and innovative business ideas, has helped us in catering to a huge clientele in different Sectors.

**Selvon Instruments Pvt. Ltd.  
Being Felicited By Minister Of State For  
Parliamentary Affairs And Culture  
Arjun Ram Meghwal For Outstanding Performance In  
The Field Of Stabilizer And Power Line Equipments**

## NSIC Certificate

 "Subject to successful completion of surveillance audit"

We have successfully installed more than 5,00,000 Stabilizers, UPS, IGBT Stabilizers & Isolation Transformers in various Sectors. Our main clients are as follows :

- 10 **Telecom** :- Reliance JIO, Airtel, Indus Towers, Idea Cellular, Vodafone
- 10 **Medical** :- Apollo Clinic, AIIMS, Medanta, ESIC, Several Oxygen Plants
- 10 **F&B** :- Starbucks, KFC, Pizza Hut, McDonalds, Nirualas, Barista, Taco Bell, Subway, Saravana Bhavan, Costa Coffee
- 10 **Banking** :- HDFC, IDBI, UTI, Canara, SBI, OBC, Citi Bank, ICICI Bank
- 10 **MNC & IT** :- L&T, Reebok, Dabur, HCL, IBM, Sahara India, Mobil India, Jet Airways
- 10 **Government Sector** :- CPWD, PWD, HPCL, IOCL, GAIL, IARI, NPL, Jal Boards  
Government Hospitals & many more.

### List of Testing Equipments:-

- ⑩ CRO
- ⑩ Three Phase Power Analyzer
- ⑩ Heat Chamber
- ⑩ Variable AC Input Source
- ⑩ HV Tester
- ⑩ IR Tester
- ⑩ Multi Probe Temperature Sensor
- ⑩ Temperature Sensing Gun
- ⑩ Testing Panel
- ⑩ Load Testing Panel
- ⑩ Variable DC Power Supply
- ⑩ True RMS Multi-meter
- ⑩ True RMS Clamp-meter
- ⑩ Humidity Sensor & CFM Meter

### Research and Development :-

#### **Design & Development of New and Customized solutions for Industrial, Telecom & Private Application**

'Selvon' has in house R&D division to cater new and customized requirements as per user specifications. SELVON has installed more than 5,00,000 units with Industrial, Commercial, Government and Domestic Sectors

**With regular development & market feedback, SELVON has come up with latest product with many new features & protections.**

## Selvon Product Range

**Oil Cooled Servo Stabilizer**  
1 KVA - 5000 KVA

**Air Cooled Servo Stabilizer**  
1 KVA - 100 KVA

**Linear (Roller) Servo Stabilizer**  
10 KVA - 5000 KVA

**IGBT Static Stabilizer**  
5 KVA - 500 KVA

**Isolation Transformer**  
1 KVA - 1200 KVA

**AMF Panel**  
10 KVA - 500 KVA

**On-Line UPS**  
1 KVA - 500 KVA

**Digital AVR**  
0.5 KVA - 10 KVA

**APFC Panel**  
1 KVR - 500 KVR

## Servo Voltage Stabilizer

A Servo Voltage Stabilizer is a closed loop control mechanism which serves to maintain balanced three or single phase voltage output despite fluctuations at the input owing to unbalanced conditions. Most of the industrial loads are three phase induction motor loads & in a real factory environment. The voltage in three phases is rarely balanced in order to obtain a stabilize & constant voltage Servo Voltage Stabilizers are installed.

Capacity Available:-

1 KVA TO 5000 KVA

## Linear A.C. Voltage Regulator (Roller) Type

Linear Voltage Regulator serves the same purpose of regulating input voltage & in providing a constant output. Linear technology employs vertical windings with Carbon Rollers on both sides of the coil & heavy section of electrolytic grade rectangular Copper Strip in order to minimize the losses.

Capacity Available:-

1 KVA TO 5000 KVA

## Uninterrupted Power Supply (UPS)

Uninterrupted Power Supply is a device that provides a constant supply of power in case of power failures. In normal operation, it draws current from the AC mains & during a power outage, it draws current from its backup source. The UPS charges the battery from the AC mains through a rectifier & charge controller circuit.

Capacity Available:-  
1 KVA – 500 KVA

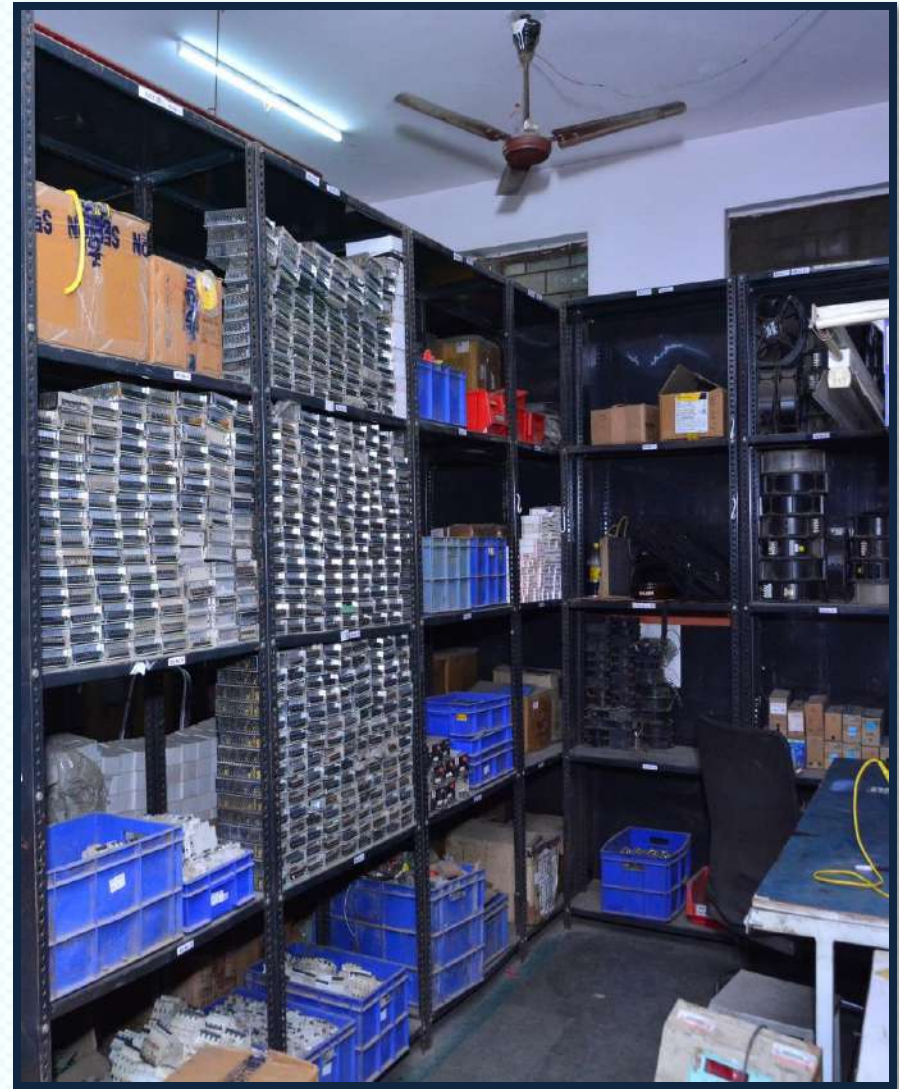

## IGBT Static Voltage Stabilizer

Selvon IGBT type Static Stabilizers are most suitable for fast, step-less and accurate Voltage regulation. These systems are built on state of the art technology with dual voltage & current tracking with robust algorithm to ensure that sensitive loads are effectively protected from grid voltage variations. The voltage correction is achieved electronically without any step changes in voltage during regulation. The system is microprocessor based & works on a feedback & control system.

Capacity Available:-  
5 KVA – 500 KVA

## Store Section

## PCB Soldering Area

## Transformer Coil Winding Area

## Assembly Area

## Final Testing

## Ready to Dispatch
